To bring price down and to make your business competitive and nimble

HOW MUCH?

You could choose every time what best meets your demands
BY PARCEL, BY WEIGHT/VOLUME, BY PALLET

WHEN?

Just only when you need it

HOW?

Just call. Our commercial and technical staff are at your disposal

LOGISTIC REVOLUTION

An innovative proposal born from our experience in materials handling and transport logistic field.

Pay-as-you-go logistic has cost based on usage, with custom parameters determinate by: Parcel - Weight/volume - Pallet

Every company daily pay only for the necessary services without minimum volume limit.

We are sure that our product is a really useful service for small and great companies, to create new synergy and to improve business management, rising operating profits.

Our target is to carry the required materials to the place of destination, with the minimum cost but in short time.

Today a large number of companies choose this service and decentralize the logistic operations, to obtain great quality and small cost, together with the opportunity to pay attention only at their core business.

LOGISTIC PAY-AS-YOU-GO
